CUSTOMER'S DELIVERY CHECKLIST

HORSE RUN INS

Customer Name: _____

Bushes, Shrubs, Tree Branches/Limbs:

- must be** cut to allow **2' of extra clearance** for the run in. (Example: The building you ordered is 12' wide. That means you must trim bushes and shrubs and cut tree branches/limbs to allow 14' of clearance.)
- are cut or trimmed up to a **height of 14'** to provide proper vertical clearance for the run in as it is moved through your property.

If bushes, shrubs and trees are not properly trimmed and the delivery person is concerned that they will scratch or otherwise damage the run in, he **has the right to refuse delivery OR charge an additional delivery fee** to perform the necessary cutting or trimming.

Other Buildings, Fences, Trees, Etc.:

- we must have **2' of extra clearance** for the run in to fit through gaps, including in between: other buildings and any trees planted near them; two or more trees planted in your yard; any buildings and any fence posts; the posts of your fence; your house and any other sheds or buildings in your yard; your house and the neighbor's house next door. (Example: The run in you ordered is 10' wide. That means you must have 12' of clearance in your gate/fence and anything else around which we must maneuver the run in.)
- Be sure to **measure at the most narrow point!** Don't overlook objects like the overhangs on your house or window air conditioner units.

If there is not enough room for the run in to fit between obstructions the delivery person **has the right to refuse delivery OR charge an additional delivery fee** to do extra work such as removing fence posts.
